SUMMARY

Aspiring Software Engineer with experience building scalable solutions, from web apps to system programs.
Passionate about solving real world problems and continuous learning.

SKILLS

Languages: JavaScript, C/C++, HTML, CSS, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, GSAP, EJS Views

Databases & Tools: MongoDB, MS SQL Server, Git, GitHub, Vite, Postman

TECHNICAL EXPERIENCE

Full-Stack Portfolio Website | *MERN, Tailwind CSS*

[\[Frontend code\]](#) [\[Backend code\]](#) [\[Live\]](#)

Full-Stack Developer (Personal Project)

12/2024 - 01/2025

- Built secure authentication using JWT and integrated Cloudinary for efficient media storage and uploads.
- Automated contact form emails with Nodemailer, improving communication efficiency and response times.

Solitaire | *C++, Data Structures, OOP*

[\[View code\]](#)

C++ Developer (Semester Project)

08/2024 - 09/2024

- Developed a console-based Solitaire game, utilizing core data structures to manage game logic.
- Designed undo functionality with a stack to track actions, enabling quick change reversal and enhancing UX.

Scatch | *Node.js, Express.js, MongoDB, Tailwind CSS, EJS Views*

[\[View code\]](#) [\[Live\]](#)

Full-Stack Developer (Passion Project)

07/2024 - 08/2024

- Engineered an e-commerce platform with server-side rendering and Multer, streamlining media handling.
- Implemented role-based authorization, cart system, responsive UI, and full CRUD using Express.js, Views and MongoDB to enable secure and scalable product management.

Weather Website | *GSAP, Javascript, Tailwind CSS, HTML*

[\[View code\]](#) [\[Live\]](#)

Frontend Developer (Passion Project)

05/2024 - 06/2024

- Created a responsive weather app using public API ensuring live, real-time weather updates.
- Integrated GSAP to enhance UI animations and boost user engagement.

HACKATHONS

RC3 2024 | December 2024 | Onsite

- Built a full-stack restaurant e-commerce solution with emphasis on clean frontend UI and admin features.
- Explored client-side rendering to integrate frontend and backend for smoother user interaction.

Decathon 2025 | February 2025 | Online

- Created a gallery website with a strong focus on UI/UX, responsiveness, and seamless image rendering.
- Collaborated remotely with teammates using GitHub for version control and project management.

EDUCATION

FAST NUCES

Lahore

BS Computer Science

2023 – Present

In 6th semester as per january 2026.

Relevant Coursework: *OOP, Data Structures and Algorithms, DBMS,*

Software Design and Analysis, Operating Systems
